Summary: Remember Reach...

Horizon (Halo Reach)

I can remember the ground. The pure grassy ground which was burnt and turned into hell, littered with corpses of those once proud and valiant but their fate secured.

I can remember the sky. The sky that once shone brightly with that fresh blue shade, now a ghostly grey as rain pattered on the scorched soil.

I can remember the trees and plants, once tall and majestic, leaves stretched out to gather the radiant sunlight that fed their growth, now no more than sediments of coal lying on the ground.

I can remember the city, New Alexandria, once the crown jewel, now a forest of crumbling skyscrapers, what's left collapsing into a cloud of ash and dust.

And most of all I can remember Noble Team, the proud group of biologically augmented super-soldiers, the best of the best, fallen, but not forgotten.

I remember all of it.

I remember Reach.
